

Executive Summary

Best Practices: Data Validation of Required Performance Data Submitted by Title I and III Grantees

February 23, 2021

Moderator: Cesar Villanueva

Speaker(s): Christina Eckenroth, Kellen Grode, Evan Rosenberg

On June 18, 2020, DOL ETA published Training and Employment Guidance Letter (TEGL) 23-19, Guidance for Validating Required Performance Data Submitted by Grant Recipients of U.S. Department of Labor (DOL) Workforce Programs, to provide information to grant recipients of DOL workforce programs (including states) to use in developing procedures for ensuring the data submitted for performance reporting are valid and reliable. TEGL 23-19 builds upon the parameters outlined in TEGL 7-18, Guidance for Validating Jointly Required Performance Data Submitted under the Workforce Innovation and Opportunity Act (WIOA) (December 19, 2018). States were asked to address their data validation processes in the Annual Performance Report Narrative, as outlined in TEGL 5-18 Workforce Innovation and Opportunity Act (WIOA) Annual Statewide Performance Report Narrative (November 7, 2018).

This webinar addresses data validation approaches described in Annual Performance Report Narratives, highlight best practices, and address common questions for titles I and III. ETA invites all title I and III grant recipients to attend this webinar for: 1) a discussion of data validation approaches, 2) highlights of best practices/approaches for data validation, and 3) to address common questions and issues. Participants will be invited to share their experiences and submit questions.
